AMERICAN DISTILLERS NON-GN MALT

Optimal Pacific NW weather conditions and team of experienced growers allow us to source barley and produce malts that are unparalleled in the industry. Non-GN Malt is a complete package of highly available starches and sugars, with just the right levels of enzymes and other nutrients, resulting in a malt with superior spirits yield. Our access to Odyssey, as well as other esteemed non-glycosidic nitrile producing barley varieties (non-GN), allow us to meet the discerning needs of American single malt whiskey producers.

IT'S YOUR MALT.

The world's best malt is not created just by algorithms and recipes. Like producing award-winning beer and spirits, it takes a sixth sense, a knowing when the flavor, depth, color and character of the malt is just right. It takes an intuition and an instinct that takes decades to master. We call it *soul*.

For over 85 years, it has been our passion to make perfect malt for craft brewers and distillers like you. Thank you for choosing us to be at the heart of your craft.
